

INDIVIDUAL MENU - GROUP BOOKING

If you would prefer individual meal selection in a group booking we are happy to provide this option. This is a slower option than the buffet option and we recommend that the meals are picked in advance and advised to the restaurant at least 4 hours before service to provide efficient service if booked in prime time. We are happy to assist with your selection if you would like as we have provided these recommendations for more than 3 years to a great variety of groups
